Dichelestidae.

Aethon, synonym.

Kröyer, 1837. A. quadratus.^(M)

This genus does not appear in his larger work, published in 1863, and altho he does not say so, yet from the descriptions given it is probable that this same A. quadratus, appears under the new name Lernanthropus angulatus, as suggested by Heller, 1865, p. 213.

αἶθος = fire-colored.
