

Anthecheridae - Bernacopoda

Richiardia, synonym,

Poecilostomatoida

B-Smith, 1899,

P. lichiae.

B. Smith proposed this name for several species which Richiardi had called Philichthys, amongst them P. sciaenae. But Richiardi had already proposed for the latter the new name Polysrhyndus. Hence this must hold (over)

P. 19x S. Richiardi's

and Richardia becomes only a  
synonym.

Richardia. see Polyrrhynchus.

Richardi proposed the name Polyrrhynchus in 1876 for Philichthys sciænae.

In 1899 B. Smith proposed Richardia for the same species; hence, latter becomes a synonym of former.
