(cont.)

Bossayni & Bull 1971 Rep.Dove Mar.Lab.,17:50

Brachiella pernettiana (Blainville), 1822

Cuvier 1830 p. 257.

Wilson 1915 Proc.U.S.Nat.Mus., 47:701 Said:
(*B. pernettiana* (Blainville), 1822, p. 439, was originally described and figured as a "Lernaeon" by Pernetty (1770, vol. 1, pl. 1, figs. 5,6). Blainville included it in his new genus *Lernaeomyzon* and gave a brief description. Cuvier (1830, p.257) referred it to the genus *Brachiella*, but added nothing further in the way of description, and thus we are left with insufficient data to locate it intelligently.)
